#### A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong deaths of the started liver is but an a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeabled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleaness the system from poling glands, cleanses the system from pol-senous accumulations, and so relieves the

sonous accumulations, and so rolleves the liver of the burdons' imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or aviable appetite, coated tongue, foul breath, coastipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distressed seeing in stomach, perhaps nauses, where the sold "risings" in throat after eating, and kindee symptoms of weak stomach and torpid live no medicine will relieve you more promptly or cure you more organism by than Doctor Pierce's Golden Medical Discovery. Ferhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or billiousness and weak stomach. A void all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are rigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a giyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extelled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

EXPLOSION AT THE STATION

Air Hose Bursts, Scattering Muand Water on Admiral Rixey, and Others.

CHARLOTTESVILLE, VA., December 31.—The President brought his year-end visit to the Roosevelt hunting lodge in southern Albemarie to a close this after-

the trip from Pine Knot in a two-seated covered carriage: The President wore his big bearskin overcoat, but this he dis-carded as soon as he stepped out of big bearskin overcoat, but this he discarded as soon as he stepped out of the carriage. Mrs. Roosevelt had a long red cape-coat thrown over her shoulders, and looked comfortable with a fur neckplece. She wore a becoming black hat. After greeting Assistant Secretary Latta and Secret Service Guard Sloan, the President hesitated long enough before entering his car to lift his hat several times to the bystanders on the station platform and to shake hands with a dozen or more of them who came forward to greet him.

him.

There was a tiresome wait at the station of three-quarters of an hour for the baggage wagon, and it looked at one time as if the special would have to proceed without it. It finally hove in sight and the contents were quickly leaded on the can

While waiting for the baggage wagon quite an exciting incident occurred. The air hose between the Pullman and the baggage car burst with an awful report, the pressure of steam being too great. It had every sound of an explosive, and all hands were startled. The bystanders were enveloped in steam, and mud and water were thrown in every direction. Admiral Rixey got more than his share. It took but a few minutes to repair the break.

A colored man, thinking it was the resultar local train north, attempted to board the rear platform of the President's car. So persistent was he in his effort to maintain his hold on the railing that he had to be shoved off by Sloan. He yelled out deflantly: "I have a ticket for this train." He was finally quieted by a local policeman.

On his hunt for turkeys again this morning the President was drenched by the heavy rain, the second "ducking" he has had on this trip as he and Joseph Wilmer were caught in a shower last evening on their return from a visit to Peyton Coles in Green Mountain. The President and Mrs. Rossevelt took tea yesterday afternoon at a summer resort hotel at Woodville, run by Miss Satile Coles.

perate struggle, Brooks was unarmed. After the attempt on Mrs. Baker's life Brooks declared that he was not sorry for what he had done; that it was not his purpose to harm Miss Virginia, but that he was going to kill the latter's mother. Yesterday Brooks sent a series of letters to the home of the Bakers, which contained threats against Mrs. Baker's life. His arrest followed this morning. The young society man, in the reception rooms at the Winchester jail this evening, faced his fait accusers with a smille on his handsome face and with a remarkable display of nerve and coolness. Asked by Magistrate Wilson if he had anything to say, he replied in a firm voice:

"I have nothing whatever to say. Acting for me, my attorney will waive preliminary examination."

Debonair and smilling, the young man was led back to his cell to await the grand jury, which will hear his case in January. After the shooting and before his arrest. Brooks was locked in his room at the hospital, and visitors were not permitted to see him.

Madly in Love.

It is learned that he said repeatedly that he would not harm Mrs. Baker's daughter, but that he was going to kill Mrs. Baker. He claims that he is madly in love with the beautiful Miss Baker, and that her mother broke up his marriage. Both Mrs. Baker and her daughter, accompanied by friends, were at

the jall this evening prepared to testify against Brooks.

The friends of the young man say that he has been on a spree off and on for six months past, and that his mind is temporary deranged. On the other hand, Robert T. Barton, attorney of the Bakers, together with a number of others who know the young man, declares that he is perfectly sane and rational. No application has yet been made for ball. The Bakers are among the most prominent people in Winchester. For five or six years Brooks has been a welcome vicitor in their home.

Miss Baker visited Richmond last wit ter during the season of the General Assembly, as the guest of Mr. and Mrs. Richard B. Byrd, and her beauty attract-ed widespread attention.
